Dear Pankaja M. C Madam

I write this letter of appreciation with feeling of fulfillment for having completed successfully my 21 days of Summer Placement , an academic assignment for MSW students of I year, at your esteemed Centre. It's my great privilege to get an opportunity to work in the Counseling Centre which is one of the most sought after Counseling Centres in Bangalore with related facilities at one place for the clients who seek counseling and psychiatric services.

I could get the overall experience of a Counseling Centre - from the contact point of the Centre at the Data Intake stage and Case Registration to working with Volunteer Counselors, Doctors from NIMHANS, Victoria Hospital and ESIC. It's my greatest pleasure to have highly experienced Chief Coordinator of this Centre as my Supervisor to guide me through every stages of Counseling at this Centre from meeting clients with various social-economic background, different kinds of problems and situations and the clients with psychiatric problems. It's a place where Trainings, Guidance, Counseling, Psychiatric Treatment and Internship for students take place within a structural environment.

I am much impressed with the fact that those who are trained in the Lay Counseling at this Centre are getting hands on experience at this same Centre as the Volunteer Counselors to gain skills and Techniques over the period of time to become full-fledged Counselors helping the Centre to cater to the needs of growing number of Clients who seek the help. The Free Service of Counseling to the needy is a model to other social sectors to have similar facilities to the poor. The combination of Counseling cum Psychiatric treatment from the experienced Doctors being at once place is the neatest way or providing the support to clients/patients.

With all appreciation, I have a humble suggestion. I feel that with the growing complexities in the socio-economic structure of societies and the changing culture and space in this world, the Volunteer Counselors of this Centre need to equip themselves with the advanced Techniques of Counseling. Training in this regard from Time to Time will enhance their skills to a greater extent to handle complex problems of clients efficiently.

I submit gratitude deep from my heart to everyone in the center for accepting me in your busy schedule and helping me understand and experience the stages of Counseling Centre and the value of service to people. I am indebted to you madam, for giving me this opportunity to work in your Centre and providing me your support and precious time in guiding and supervising my work at the centre.

Thanking you once again with my humble heart,

Bangalore

25/07/2015

Yours Sincerely

Vidya P S
